DETAILED ACTION

Amendment Under 37 CFR 1.116

1. The Examiner acknowledges receipt of the amendment under 37 CFR 1.116 submitted June 19, 2002. Applicants are advised that the amendment has been entered.

Examiner's Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the combination of the following arguments by appellants:

I. Appellants' arguments that the claims language, "consisting essentially of" excludes rare earth elements from the grain boundary phase of the claimed permanent magnets (for example, see appellants' Brief, the paragraph bridging pages 4 and 5).

II. Appellants' arguments that the claimed magnets are not inherently disclosed by the prior art and appellants' discussion of the data in the specification in support of this argument (see appellants' Brief, Section III, A, 2 (pages 5 to 8, particularly page 7, full paragraphs 2 and 3).

III. Appellants' arguments that the prior art does not teach or suggest the claimed matching between the grain boundary phase and ferromagnetic phase and that such a matching improves the coercivity of the claimed magnet as set forth on pages 8 and 9 (Section B) of appellants' brief.

Art Unit: 1742

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
